

# Safe water savings in Mediterranean tourist facilities

[www.demeaumed.eu](http://www.demeaumed.eu)

Eric MINO, Maha AL-SALEHI, Eve DALLAMAGGIORE  
EMWIS, Sophia Antipolis-Nice, FRANCE  
LGI Consulting, Paris, FRANCE

- European water innovation project, 42 months (2014-2017)
- Integration of 8 innovative technologies and a monitoring, control system for water purification and reuse
- Demonstration in Samba Hotel, Lloret de Mar, Spain (441 rooms)

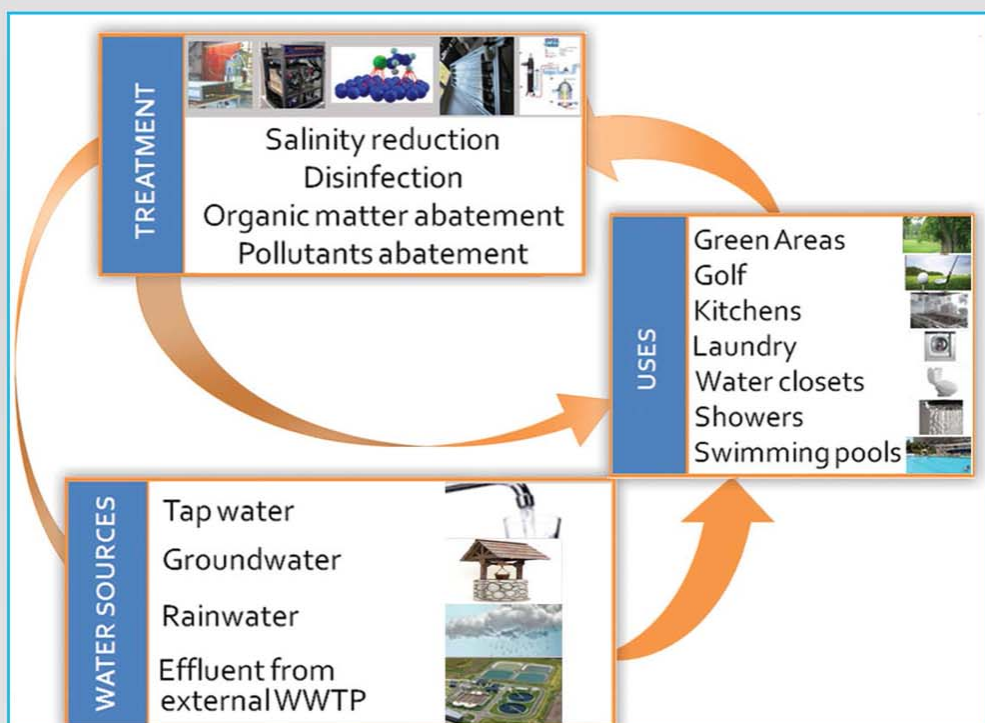

## Added value

- Lower water and carbon foot prints of touristic resorts
- Lower operational costs (water & energy)
- Daily monitoring water use and quality
- Easier access to green hotel labels
- Adapting to climate change.
- Safe water management
- Decision-support system to optimise water management
- Creation of new market opportunities

## Targets

- Reduction of fresh water consumption in resorts: 30-50%
- Recycling water 60-70%
- Emerging contaminants removal: 60-80%
- Environmental impact reduction: 10-30%
