

STORA BRÄNNBO, SIGTUNA

Stora Brännbo Hotel and Conference has a modern and sustainable Scandinavian design. Located in the heart of Sigtuna and with a beautiful view over Lake Mälaren, Stora Brännbo is the perfect location to hold your conference or meeting. It will be an experience out of the ordinary.

A nearly Zero-Energy Hotel is a hotel that has a very high energy performance. The very low or nearly zero amount of energy required should be supplied by renewable sources, produced on-site or nearby.

...a hotel engaged to becoming neZEH
In 2014, Stora Brännbo, Sigtuna committed to become one of fourteen pilot hotels in the EU funded project - Nearly Energy Zero Hotels. This initiative enabled Stora Brännbo to continue its extensive efforts in sustainability, to reduce its environmental impact and to improve the comfort and experience for guests.

- Please turn off the airconditioning when you leave the room.
- Please keep the windows closed when the air-conditioning/heating system is on.
- Please take a shower instead of a bath.
- Please inform staff if you do not wish new towels each day.

Measures towards nearly Zero Energy

Stora Brännbo's quest to accomplish nearly zero energy status is very ambitious. It is a long-term process requiring much investment and time. Here are some of the initiatives taken:

- Optimisation of energy system.
- Installation of LED lighting
- Lighting controlled by sensor detectors
- Install geothermal heat pumps
- Install solar panels
- Training staff and informing guests

BENEFITS FOR OUR GUESTS

- Increased comfort and service.
- Reducing the hotels impact on the environment related to energy usage.
